

BEDBASE VISION 17

HEIGHT: **17 CM**

FINISH: **COVERED ENTIRELY**

Support: **Firm**

+ THE IDEAL COMBINATION FOR A PERFECT NIGHT'S SLEEP:

The bed base is an essential part of your bed. It accounts for a third of the support and therefore the comfort of your bed.

We recommend that you change your base at the same time as your mattress, because a great mattress combined with a used base will deteriorate much more quickly.

Eco-friendly finish	The cover fabrics are made from a range of ecological thread Ecolife®. Kind to the skin and the environment, with Oeko-Tex and Global Recycled Standard certification, this fiber is untreated.
Reinforcement of the mattress comfort	Fixed wooden slats strengthen the mattress support. The frame is solid wood, a natural high-quality material. Corners are rounded for a finish in total harmony with the mattress.
Comfortable and breathable bedding that promotes the local and circular economy	Quilted comfort thanks to the recycled wadding filling.

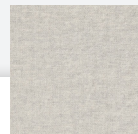

+ FINISH:

The bedbase VISION is available in 3 fabric colors, JR3 CENIZA, JR4 GRAFITO or JR5 NATUREL matching the GENERATION mattress. It is delivered with legs - Scandinavian - in natural coloured wood, 15cm height.

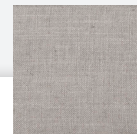

+ AN ECO-DESIGNED BED BASE:
